Profile

Highly motivated and skilled React.js developer with expertise in front-end development, seeking a challenging position to contribute my skills and knowledge to develop innovative web applications.

Skills

HTML/CSS

JavaScript

React JS
Javascript Framework

Strapi and API Integration
Headless CMS

Bootstrap/Material UI
CSS Framework

Redux Toolkit
State Management Tool

Projects

News Web app　　　　　　　　　　　　　　　　10/2022 – 10/2022

Delivered real-time news updates with a personalized touch through a React.js web app powered by the News API.

Weather Web App　　　　　　　　　　　　　　　09/2022 – 10/2022

I developed a weather web application using React.js, leveraging APIs to provide real-time weather information and deliver an intuitive user experience.

Blogging website　　　　　　　　　　　　　　　02/2023 – 04/2023

Created a blog website using React.js, Strapi, and Material UI for an intuitive and enjoyable content creation and sharing experience.

Ecommerce Website　　　　　　　　　　　　　　04/2023 – present

Designed and developed an e-commerce website using React.js and Strapi, enabling seamless online shopping experiences with secure transactions and intuitive user interfaces.

Interests

Football (Intermediate Player), **Robotics**🤖 (I love Robotics. This Include in my features plans.)

Education

Matrix, *Jinnah Park High school*　　　　　　　03/2020 – 04/2022
　　　　　　　　　　　　　　　　　　　　　　　　Rahim Yar Khan, Pakitan

During the matrix journey, I dedicatedly improved my C programming skills through multiple small and medium-sized projects.
